

Trusted Partner for Industrial Solutions since 1977

ELECTRICAL | LIGHTING | VENTILATION

www.zenithunited.com

“ We provide reliable and integrated **ELECTRICAL, LIGHTING, and VENTILATION SOLUTIONS** to meet the requirements of major industries in the Philippines. ”

ABOUT US

Since 1977, Zenith has grown to be a leading supplier for electrical materials in the country by carefully partnering with reputable global manufacturers and providing only quality products and service to all major industries nationwide.

From its humble beginnings as Zenith Electrical & Industrial Supply Corporation and its modest store in downtown Chinatown, Zenith has remained consistent in its commitment to customer service as it expanded its product portfolio to carry only leading global brands for electrical products.

In 2016, Zenith Electrical and the ventilation company Indola International Phils., Inc. consolidated and the company was renamed to Zenith United Electric Corporation.

In 2017, Zenith United acquired the cable company Zenith Wire & Conduit Inc., consolidating its core business and expanding its product portfolio to offer a complete range of integrated solutions for the electrical, lighting, and ventilation requirements of all major industries in the Philippines.

Moving forward, Zenith United remains steadfast in its commitment to deliver quality solutions that meet project requirements and benefit its valued customers. The company continues to listen to understand the specific requirements of each project and offer integrated solutions that achieve energy and operational efficiency, cost-savings, and workplace safety.

OUR SOLUTIONS

-  Explosion-protection
-  Industrial Lighting
-  Low-voltage
-  Controls, Automation, & Signaling
-  Lightning & Grounding
-  Ventilation
-  Cables
-  Conduits, Fittings, Boxes, & Raceways

EXPLOSION-PROTECTION

We provide the most comprehensive line of electrical and lighting products designed and approved worldwide for safety in harsh surroundings.
